Allowable Subject Matter

1. Claims 1, 3-10, 12, 13, 15, and 22 are allowed.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Each of the independent claims deemed allowable include the limitation of an array of waste ports and an array of waste passageways, wherein the waste passageways are perpendicular to the second surface of the capillary array electrophoresis plate. This limitation is not anticipated, nor made obvious, in a search of the relevant prior art.

The closest relevant prior art is KENNEDY (US 6,086,740). KENNEDY teaches the limitations that are shared by the allowable independent claims and the claims previously rejected in the Office Action mail dated April 1, 2009. However, KENNEDY does not teach, nor does another prior art reference make it obvious to one of skill in the art, to include the limitation of an array of waste ports and an array of waste passageways, wherein the waste passageways are perpendicular to the second surface of the capillary array electrophoresis plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

3. The drawings were received on June 30, 2009. These drawings are acceptable.

Conclusion
